

Prof. Hanna Bandurska (*Department of Plant Physiology, Poznań University of Life Science, POLAND*) will give a cycle of lectures dealing with:

PLANT RESPONSES TO ABIOTIC STRESSES

22 May (Tuesday)
9.30-11.00, Aula 12 CG

- *Abiotic stress factors and general plant resistance mechanism*
- *The impact of increased tropospheric ozone concentration on plants*

23 May (Wednesday)
14.00-15.30, Aula 6 CG

- *Plant biochemical and physiological response and resistance to water deficit*

25 May (Friday)
9.00-10.30, Aula 13 CG

- *Salinity stress and mechanism of resistance*

25 May (Friday)
11.00-12.30, Aula 13 CG

- *Effects of increasing UV-B radiation on plants: damages and resistance mechanisms*
- *Plant responses to combined action of abiotic stress factors*
